DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8 and 11-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Pohjola (US 4,936,639).

Pohjola discloses a track assembly comprising a frame having a first end and a second end; a first idler wheel (15) operably associated with said frame at said first end of said frame; a link (21a) pivotally connected at said second end of said frame at a pivot member (21c) to pivot in a generally vertical plane about a pivot axis defined by said pivot member, an imaginary dividing plane being defined by a vertical extension of said pivot axis; a second idler wheel (21) operably provided on said link; a tensioning device (21b) between said frame and said link to maintain an axis of said second idler wheel below said pivot member and on a side of said imaginary dividing plane opposite from said first idler wheel; and a continuous track (10) provided around said first and second idler wheels, said continuous track having a tread portion formed by a lower span of said continuous track.

The track assembly being two in a vehicle cart.

Allowable Subject Matter

3. Claims 1, 4-7 stand allowable.

Art Unit: 3617

4. Claims 9-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 04/06/2006 have been fully considered but they are moot in view of the new ground of rejection.
